To Whom It May Concern:

I am writing this letter in support of the Thomega Entertainment Canada Remembers Programing and Educational guide. The six documentaries filmed in Saskatoon have been a positive resource for our schools and teachers. The content and support provided to our teachers allows us to ensure that our students always remember the contributions of our veterans.

The series and learning plan are an invaluable resource to our division and we sincerely want to thank the Legion for their support of this important work. We hope that funding can continue in support of our students. We look forward to sharing the resources with all Social Studies and history teachers to continue to educate our youth about the realities faced by so many veterans.

As a grandchild of two veterans I know first-hand of the sacrifices made on behalf of Canadians and we are proud to continue to share a resource that is engaging for our students and broadens their understanding of the sacrifices made and the impact of the veterans on our society. Thank you for your consideration of supporting such a resource for the youth of our schools.

As a society we must never forget the past so that we can face a peaceful future in Canada and around the world!

Sincerely yours,

Scott Gay

Superintendent of Education

Greater Saskatoon Catholic Schools
